IVR ENERGIEVERTEILUNGEN GMBH

...entwickelt - baut und liefert unabhängige Energie Lösungen (Green Energy Solution) für nicht elektrifizierte Regionen - weltweit. Dies umfasst die Ermittlung der tatsächlich benötigte Energieleistung (KVA), die Berücksichtigung der örtlichen klimatischen Bedingungen und die erforderliche Speicherleistung (h). Unser Lösungen umfassen die grünen Energieträger: Wind - Wasser - Solar - Bio Gas

Fragen Sie uns an, wir helfen Ihnen in jedem Fall.

... develops - and supplies independent energy builds solutions (Green Energy Solution) for not electrified regions - world-wide. This covers the determination of the actually needed energy achievement (KVA), the consideration of the local climatic conditions and the necessary storage performance (h). Our solutions cover the green sources of energy: Wind - Water - Solar - Bio Gas

Enquire us, we help you in each case.

Independent Solar - Wind Energy Solution for Communication Relais Station
1 till 2 kw; 220 V AC / 50 HZ

Mobile Move Solar-Systems for Village or City supplying 50 KW - 10 MW
220 V AC till 36 KV

Independent Solar Energy Solution for Railway Communication Station
5-10 kw

Independent Solar Solution „COMET“ for Medical Center, for Schools, Kindergarten, Houses
1 KW

Independent Solar Water Center Station for Privat People and Village >>

Independent Solar Water Pump Station for Fish Farmer, Agriculture and Village, incl. Solar Panels and Pumping System

Independent Solar Systems for clean Water Solution
1-2 KW

Independent Wind mill solution 12.5 KW
For farmer or small village or Hotels

Solar Roof Systems
On or OFF Grid
